PROFILE

Frontend/Fullstack Developer transitioning into software development after 12+ years managing complex engineering and construction projects. Experienced in coordinating multidisciplinary teams, solving technical problems, and delivering projects under deadlines. Able to build web sites and app from concept, layout, interactive elements to server-side and databases.

PROJECTS

01.2026 – 03.2026
React Web Application - myFlix
JS ES6, React, SCSS, MongoDB, HTML5, Node js, Parcel
Fullstack web application that provides users with information about movies, directors, genres etc. Users can sign up, update their profile info and personal list of favorite movies

11.2025 – 01.2026
Pokedex
JS ES6, CSS3, HTML5, Bootstrap, jQuerry
A web app that fetches data from public API pokeapi.co, displays them on a webpage, allows to filter them and get more information about each pokemon by opening a modal with details after clicking on name of a pokemon.

10.2025 – 11.2025
Portfolio website
JS ES6, CSS3, HTML5
Responsive personal portfolio website to showcase software development projects, technical skills, and professional background.

WORK EXPERIENCE

09.2020 – 06.2025
PROJECT COORDINATOR
CN EUROPLAN GmbH
Coordinated technical execution documentation and collaborated with engineers and architects across international teams - Resolved planning challenges to ensure efficient and executable project solutions

09.2018 – 08.2020
SENIOR CONSTRUCTION INSPECTOR
BANK GOSPODARSTWA KRAJOWEGO
Supervised construction projects to ensure compliance with technical documentation, legal regulations, quality standards, and project schedules

11.2016 – 03.2018
SITE MANAGER IN FIT-OUT TEAM
OLIVIA BUSINESS CENTRE
Managed delivery of complex office fit-out projects coordinating multidisciplinary installation teams - Maintained timelines, quality standards and budget control

03.2015 – 11.2016
JR SITE INSPECTOR/QUANTITY SURVEYOR
MUSEUM OF THE SECOND WORLD WAR
Supported project supervision, cost control, and contractor settlement processes while ensuring compliance with project and quality standards.

07.2012 – 07.2014
SITE MANAGER
INVEST KOMFORT
Supervised project execution, coordinated contractors, and ensured compliance with technical, quality, schedule, and cost requirements.

SKILLS

Front-End:
- HTML, CSS, JavaScript
- Libraries/Frameworks (React, Redux, jQuery, Bootstrap)
- AJAX/JSON
- Mobile Apps (React Native, PWA)
- Responsive Design, modals and touch interaction

Back-End and Databases:
- Node.js & Express
- APIs
- MongoDB
- PostgreSQL
- Hosting & Web Services (AWS, Heroku, Netlify, Vercel)

Other:
- Version control (Git, GitHub)
- Chrome Dev Tools
- TDD and BDD (Unit, Integration, Acceptance & End-to-End Testing)
- Postman
- Parcel
- Jira, Trello, Wrike, MS Planner

Languages:
- Polish C2
- English C1
- German B2
- Spanish A2

EDUCATION

Software Engineering Immersion - Certificate
Career Foundry
November 2025 - February 2026

Civil Engineering - MSc, BSc
Gdańsk University of Technology
September 2010 - March 2016
MSc - Project Management and Technology
BSc - Technology and Organisation
